

Book launch

Is Australia's
population
growth out
of control?

Overloading Australia

How governments and media
dither and deny on population

V · I · E · W · P · O · I · N · T · S

- Did you know Australia's population is on track to double by 2050?
- Is sustainability possible without population control?
- What is our moral responsibility to Australia's biodiversity?
- How should we respond to global population expansion

Queensland launch Overloading Australia
